LAKE TE ANAU

Situated at the bottom of New Zealand's South Island Fiordland National Park consists of 1.2 million hectares of protected native forest and vast mountain ranges.

Fiordland National Park was officially constituted in 1952 and was declared a World Heritage Area in 1986. The forest consists of a large number of native and introduced species of tree that cover the predominantly hard crystalline metamorphic rock faces. Many species of wildlife have also made a home amongst the forest. The Fiordland National Park is like no other place on earth and for the most part untouched by humans, protected by the Department of Conservation. This place is the closest thing to stepping back in time that you will ever experience.

Out here you will feel like the only people on earth.

What they say...

My partner and I went on the Faith for their afternoon cruise and walk and it was just incredible. From the very start, Adam and Megan made everyone feel welcome and took the time to meet every passenger. The boat is beautiful, with amazing history. Complimentary drinks and canapes were great, and it felt like we were sailing with long-time friends. I highly recommend the experience if you want to do something different, away from mass tourism and crowds in a beautiful environment. Thanks again for a great trip!

We love the opportunity to have children on board, and as long as they have an adult close by, they can get involved in some of the aspects of sailing Faith including driving and hoisting sails

Mobility.

Some fitness is required. If your mobility is limited there is an option to remain on board at the Hidden Lakes wharf.

Our Scenic Cruise Guided Walk bush walk is a walk marked only by bush markers. The surface is uneven and there are tree roots to step over. The surface consists of forest floor and leaves, there is no pavement areas. There are two bridges to cross on the duration of the 600m walk into the hidden lakes.

Toilet

While our bathroom facilities are minimal. The toilet is similar to a camper-van toilet to ensure we are keeping within our national park environment plan. The toilet is located down the aft staircase. This may not suit passengers who find confined spaces difficult.

"What an amazing morning with Megan, Adam and my lovely fellow sailors. Great vessel, lovely ride over lake Te Anau, fascinating walk in the Parkland, great canapes and drinks. Oh and a look at the engine and I helped hoist the sail. My second trip. Won't be the last"

Bliss on Lake Te Anau

May 2026 • Couples • Deanna Trip Advisor

"The cruise was historically amazing, educational, interesting and fun. We had the run of the yacht, nowhere was off limits. We even ventured into the engine room."

March 2026 • Mathew • Facebook

"From the moment we stepped into the jetty until the very end, the entire experience was truly exceptional! Captain Adam and his trusty crew Meghan made us feel at ease, welcome, informed and safe, but most of all fun! A brilliant trip on the Faith today. Amazing views and a great little walk to the hidden lakes.

Our two kids were with us and the operators (Adam and Meghan) were so good with them, giving them little jobs and making them feel special. All round, a great trip in an awesome part of the world."

May 2026 • Jillian • Google

"This was the most amazing experience. Words cannot express my time on the boat and walking into the hidden lake. It was so magical and special. I would give this cruise 10 stars!!"
